

Tennessee Tech University

Fall 2010 Scholarship Course Offerings

Onsite Technology for Teachers class:

Locally selected, relevant, technology topics for teachers. Five to six class meetings taught by local facilitator.

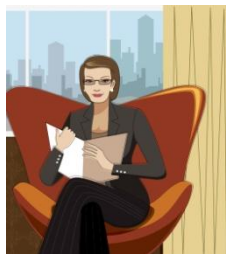

ONLINE: Mentoring Pre-service and Novice Teachers:

This course investigates the characteristics of effective mentors for both pre-service and novice teachers. Opportunities to reflect and conduct self-assessments will be provided prospective mentors as well as a review of resources to improve current mentoring abilities.

ONLINE: Creating Online Curriculum:

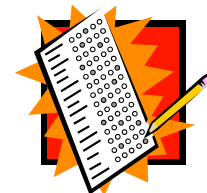

Participants will review the benefits of an online delivery method of curriculum and will create effective online student-centered lessons appropriate for their specific teaching assignments.

ONLINE: Professional Readings for Educators

Participants will engage in self-selected professional readings and share information with others through discussions and the development of a collective annotated bibliography.

ONLINE: Praxis II Preparation: Individualized preparation materials will be developed for each participant as requested for specific PRAXIS II exams. Preparation may prove especially useful for those eligible participants who are currently licensed but interested in seeking an additional endorsement offered through the test-only method now available through the TN Office of Teacher Licensing.

ONSITE (in select locations) & online: Classroom Spanish for Teachers: Conversational Spanish to aid teachers in communicating with parents and students.
